

Special MR16 and MR11 Reflector Lamps – Colour Lights

- The standard MR16 lamps are fitted with a front glass cover with special thin film coating
- that enables specific color transmission to the front thereby producing dramatic color effects
- Colour available : Red, Yellow, Blue and Green
- Available also with MR11 lamps
- Average Life 3000 hours

Special Dichroic Reflector Lamps – Décor Colours

- Opal glass reflector in White, Red, Yellow, Blue and Green dichroic coating
- Soft tone back color – the normally unwanted back light becomes a diffused coloration with a dramatic soft-tone effect
- Available with MR11 and MR16 reflector lamps
- Average Life 3000 hours
